

## **GUARDIAN® SERIES**

AUTOMATIC STANDBY GENERATOR

# 20 kW

### **Choose the #1 Selling Home Standby Generator Brand**

Generac's Guardian® Series provides the automatic backup power you need to protect your home and family during a power outage. Connected to your existing LP or natural gas fuel supply, it kicks in within seconds of determining power loss—automatically—and runs for as long as necessary until utility power returns.

**Control your power. Control your life.™**

#### **OHVI® ENGINE**

Purpose-built for the rigors of generator use, and requires significantly fewer scheduled maintenance checkups than competitive engines.

#### **TRUE POWER™ TECHNOLOGY**

Delivers best-in-class power quality with less than 5% total harmonic distortion for clean, smooth operation of sensitive electronics and appliances.

#### **QUIET-TEST™**

Quiet-Test weekly self-test mode runs at a lower RPM. It is quieter than other brands, and consumes less fuel.

#### **MOBILE LINK™ COMPATIBLE**

Mobile Link is the new cellular remote monitoring system from Generac that lets you check on your generator's status even when you are away using your computer, tablet or smartphone. Sold separately.

#### **EVOLUTION™ CONTROLLER**

The next generation of intuitive controllers featuring a multilingual, two-line LCD text display with color-coded, backlit buttons.

# 20 KILOWATTS

**Generac 20 kW Guardian Series home standby generators are ideal for managed whole-house backup for most homes. This generator can back up multiple air conditioners as well as the rest of your home.**

- Generac's OHVI® engine is purpose-built for the rigors of generator use, and requires significantly fewer scheduled maintenance checkups than competitive engines.
- True Power™ Technology provides clean, smooth operation of sensitive electronics and appliances.
- RhinoCoat™ finish on aluminum enclosure prolongs the life of your generator with corrosion-resistant protection from the elements, making it ideal for coastal, salt-air climates. The enclosure is also lined with sound-dampening foam panels for further noise reduction. Composite mounting pad is included, eliminating the need to pour a concrete base unless specified by local codes.
- Sturdy, all-weather aluminum enclosure is modeled to withstand winds up to 150 mph, and with a fire rating, 3rd-party-certified to NFPA standards, that allows for installations as close as 18" to the home.
- The only standby generator certified for natural gas operation at 3.5" of water column to accommodate low-pressure areas.
- Quiet-Test™ Mode weekly self-test mode runs at a lower RPM, is quieter than other brands, and consumes less fuel.
- Mobile Link™ compatible, for wireless remote monitoring of your generator. It sends alerts or text messages to your computer, tablet, or smartphone.
- Generac's Evolution™ Controller features a dual-line, multilingual LCD display in English, Spanish, French and Portuguese allowing for easy monitoring of history and maintenance logs, as well as management of generator functions. Also features a built-in hour meter to monitor run times, provide information to determine maintenance intervals, and trigger reminders.
- DPM™ Technology intelligently manages household loads for a more affordable standby solution. (Units bundled with 200 Amp transfer switches only)
- External "at-a-glance" indicator lights offer an easy way to see generator status without opening the generator enclosure.
- External GFCI outlet safely provides greater external usability during a power outage.
- Tool-Less Fuel Conversion allows for easy switching between natural gas and LP fuels in the field without the need for tools.

## SPECIFICATIONS:

Generator-Only Model#	6250	Generator / 200 Amp load-shedding Smart Switch™ Package Model#	6244
Voltage (Single Phase)	240V	Quiet-Test Mode	Yes
Amps @ 240V LPG	83.3	db(A) at exercise	60
Amps @ 240V NG	75	db(A) at normal operating load	66
Engine/Alternator RPM	3600 / 3600	Automatic Transfer Switch	200 Amp service rated
Engine	OHVI / 999cc	Enclosure	Aluminum (includes base fascia)
Fuel Consumption @ 1/2 load NG cu. ft/hr	205	Enclosure Color	Gray
Fuel Consumption @ full load NG cu. ft/hr	308	Warranty	5-year limited
Fuel Consumption @ 1/2 load LPG cu. ft/hr (gal/hr)	75.6 (2.08)	Dimensions (L" x W" x H")	48 x 25 x 29
Fuel Consumption @ full load LPG cu. ft/hr (gal/hr)	140 (3.85)	Weight (lbs.)	451

## Nationwide Dealer Service Network

Generac's commitment to service includes scheduled maintenance programs, warranty assistance and emergency service to ensure that Generac customers are never left powerless. The largest nationwide dealer network has factory trained technicians on staff and maintains large inventories of Generac parts, components and accessories. Find a dealer near you at [generac.com](http://generac.com).
