

Pricing

Monitoring service is included for the first year with purchase of the Mobile Link product. After the first year, choose from low-cost monthly or annual plans for as little as \$8 per month.

Note: Mobile Link requires a cellular subscription through StandbyStatus.com to provide updates to StandbyStatus.com. Mobile Link and StandbyStatus.com are not responsible for cellular and/or Internet charges incurred by users to receive notifications from StandbyStatus.com. Cellular service will be billed through StandbyStatus.com and is subject to change

Model #'s:

6463 – Mobile Link

6478 – Liquid-Cooled Extension Cable (required for Mobile Link on all liquid-cooled units)

Warranty:

1 year limited.

Compatibility

Mobile Link is compatible with most 2008-and-newer air-cooled standby generators and 2010-and-newer liquid-cooled standby generators from Generac®, Honeywell®, Centurion®, Eaton® and Siemens® that have either a Nexus controller with an LCD display or an Evolution controller.

It is not compatible with existing wireless or advanced monitoring solutions from these brands.

Product Questions

Please visit the FAQ on standbystatus.com or call 855-Gen-View (855-436-8439).

NOTE: Please ensure you have cellular service capable of sending and receiving text messages in your area before purchasing.

Mobile Link™

Know your generator will be ready when you need it

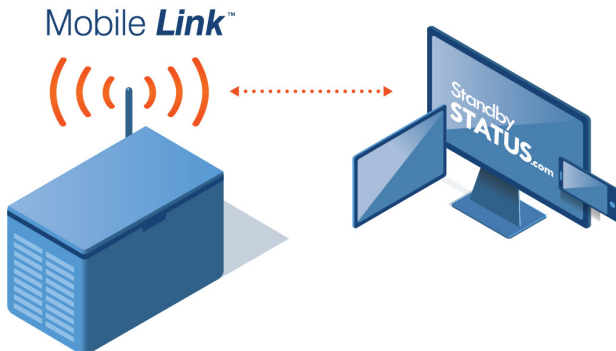

Get Peace Of Mind

Mobile Link is the new cellular remote monitoring system from Generac that lets you check on your standby generator's status, or receive timely notifications when something is needed, using your computer, tablet or smartphone. With Mobile Link, you'll always know exactly what your generator is doing – or not doing.

How it Works

When the generator experiences a change in status, Mobile Link sends the update to StandbyStatus.com, which forwards that information via website, email or text message – automatically.

Reliable. Affordable. Easy.

Mobile Link's cellular-based technology offers significant advantages over existing alternatives:

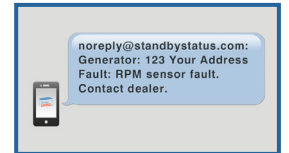

- Lowest cost of any cellular monitoring solution
- Cellular technology provides broad nationwide coverage without complicated set-up or maintenance
- Installs in less than 15 minutes and remarkably easy to use
- OEM design for reliability and accuracy

Timely Notifications

StandbyStatus.com provides specific, accurate data on the status of your generator:

- Over 40 different notifications, including successful exercise, maintenance reminders, change in status, low battery, and fault alert
- Select which notifications you wish to receive and when at up to 4 different email and 4 text message accounts
- Opt to send maintenance alerts to your authorized service/maintenance provider so they can proactively provide professional support

StandbyStatus.com

StandbyStatus.com features a user-friendly dashboard that allows customer to:

- View current generator status and upcoming maintenance needs
- Remotely set exercise schedule
- Review run and maintenance history
- Get local weather updates
- Change messaging settings
